GOO GOOS HATE THE FIFTY.

IT'S A REALLY DREADFUL QUAR-REL IN SELECT CIRCLES.

Confound Their Politics, Frustrate Their Knavish Tricks," In the Burden of the O. O. Song-The Quinquagintal Quarter Million In Very Slow in Coming In. There is said to be serious trouble in the Committee of Fifty. Ine contributions to the quarter of a million fund that was to be raised to pay for the fusion ticket are not coming in plenteously and everybody is growling. The Goo Goos are belping along the disturbance in their simple Christian way, partly on the ground that the committee entered into a deal with wicked politicians, and partly to get square on Charles Stewart Smith. They accuse the boss of the Fifty of trying to disrupt the Goo Goo organization and cripple the half-orphan ticket. Mr. Smith, they say, put up the job to get Lockman, Odell, Delafield, and Adams to withdraw, and when only Delafield withdrew they say he tried to seduce Adams by offering to put him on the fusion ticket in the place of Hawes with the argument that it was better to run for \$20,000 salary on a two-years' term as Justice of the City Court and get it than to run for \$108,000 as Judge of the Gen-eral Sessions and not get within 98,000 votes

it than to run for \$198,000 as Judge of the General Sessions and not get within \$8,000 votes of it.

"This," said a Goo Goo yesterday, "was about as low a piece of politics as I have ever heard of. Why shouldn't we resent such work?"

The Fifty's committee of five, which made the deal for the fusion sicket, is principally responsible for the trouble. When the Five reported the ticket to the Fifty there was a lot of kicking, which the Five overcame by stremously asserting that while the ticket wasn't much good, it was the beet that could be got and was better than Tammany would put up. This statement was accepted at the time, but since then a lot of things have come out about the deal. Members of the Goo Goo Conference Committee say that the Five were not in it at all when it came to selecting candidates, and were consuited only after the selecting had been done to find if they had any objection to the men named. This in itself has made a lot of the Fifty wroth, and it has been followed up by the sturdy assertions of the Goo Goos that they had the chance to make a great deal better deal but rejected it. They have been saying that the Committee of Five could have dictated the whole ticket if it had held off a bit and offered to put up the money to carry the Assembly and Senate fights for Platt. Mr. Lauterbach, they say, didn't care a rap about the local ticket and simply bluffed the Five out of it.

Among the kind of people that support the Goo Goos and the Fifty the Goo Goos have reputations for honesty and truthfulness even where their mature wisdom is questioned. So these stories, when told with the solemnity that the Goo Goos and the Fifty the Goo Goos have reputations for honesty and truthfulness even where their mature wisdom is questioned. So these stories, when told with the solemnity that the foo Goos put into everything, go, and there couldn't help being a row. One member of the Committee of Five contributed a check to the Insion cause. It was a firm check. The next say the other members of the firm and

STEINWAY ON PURITAN RULE. He Predicts a Waterloo This Year for the

The Garoo headquarters in Lexington avenue at Forty-third street are the busiest of any of the political headquarters in the city. The Germans have a literary bureau conducted by three editors and a corps of reporters. This bureau grinds out circulars, dodgers, and statements of all sorts, and sends out a corps of interviewers daily. It is getting up a pamphlet reply to Warner Miller. What particularly rankles is Mr. Miller's suggestion that good women would not resort to a place where drink is sold. The Germans will try and make his party regret that suggestion. One of the representative Germans inter-

One of the representative Germans interviewed by Mr. Felerabend's bureau yesterday is William Steinway, who said:
If It is always a mistake to put Havseeds and furitans into power. I said so on Nov. 8 last year. The people of the city of New York will not stand Rooseveltism. They don't want to be dictated to what and when they shall eat and drink, when and where it is lawful to be shaved, and when and where it is a crime. Why, Mr. Roosevelt even says it is a crime to take a friend to your club and there treat him to a bottle of wine. An overwhelming majority of voters will reject the ticket supported by Roosevelt and his allies. It will be a complete Waterloo for the Republican party. The people of this great city are tired of the spy system. If this was to continue, we might as well emigrate to Russia, where they seem to have more personal liberty than there is under the folds of the Stars and Stripes. One year of Hayseed dictation and Roosevelt persecution is enough for us, and on Nov. 5 hypocrisy and blue laws will be buried by a cyclone of justified indignation."

TAMMANY MEN UNPLEDGED. Candidates for Senate and Assembly Tell

the Unroos Pledges Are Forbidden. Tammany Hail's legislative candidates are in no hurry to sign the pledge which the Garoos prepared for them, stipulating that the signing must be a condition precedent to the Garoo enent of their candidacy. Not one of the candidates for Senator or Assemblyman has signed the pledge, and it has been intimated to the Garoo campaign managers that the pledge the Garoo campaign managers that the pledge cannot be signed. According to John Feierabend, who is in charge of the Garoo literary bureau, the objection to signing the pledge is based on section 41 of the Penal Code, which relates to promises made to influence votes.

None of the many subdivisions of section 41 of the Penal Code makes it a misdemeanor for a candidate to pledge himself to a policy to be pursued by him while in office. Nevertheless, the Garoo Executive Committee at its meeting last evening considered this excuse of the candidates for not signing the pledge as possibly a valid one. It asked the Law Committee to report more fully on the matter.

The pledge which the Garoos try to exact would bind the Tammany candidates to bolt their party caucus should its decision be averse to Garoo legislation.

O'BRIEN ENDORSES TAMMANY. It's Just for This Once and He Is Still the

The Nominating Committee got together at 9 octock and the doors were locked. The ex-Sheriff made the motion endorsing the Tammany Hall ticket. There were four speeches in favor and two against the resolution, and then a vote was taken. Twenty two voted in favor, six against, and three were excused. The six against were J. M. Brady, Francis M. Bixby, Frank Spencer, Hugh Keily, Vernon Seama, and Thomas Walsh. Ex-Alderman Jachne was one of those excused from voting. The Secretary was instructed to notify the Tammany candidates that they had been endorsed.

LOGAN CLUB'S OLD BEER BILLS Unless They Are Promptly Paid Some Republican Receptions Will Be Off.

The Logan Club, a social Republican organization on the Park Slope in Brooklyn, which has entertained Senator Lexow, Lieut, Gov. Saxton and other leading statesmen, is in financial straits. Vesterday William F. Hollwadal liquor denier, obtained a judgment against the club for \$248.05, which is a balance on the bills for the teer furnished to the club from May, 1803, to August, 1805.

Fammany Makes a Proposition and the Grace Men Take a Night to Think. The efforts to straighten out the legislative tangle in New York county were continued at headquarters yesterday. Half a dozen minor conferences were held, and the final one came in the evening, when John C. Sheehan, James Martin, Tammany members of the sub-committee of the Belmont committee, with William Itt Mitchell of Tammany, met Charles S. Fairchild, Corporation Counsel Scott, and Col. Robert Grier Monroe of the State Democracy. The Tammany folks said that they were ready to submit a proposition if the State Democrats were. The latter replied that, while they were not ready to submit that, while they were not ready to submit their proposition, they would like to know if the Indians would treat on the basis of Senate nom-inations alone, that is, if they withdrew their candidates for Senators would Tammany con-sider such a proposition. Mr. Martin imme-diately asked the State bemocrats if they were ready to withdraw Alexander S. Williams in the Twelfth, T. J. McManus in the Seventeenth, and John J. Cullen in the Fourteenth district. The State Democrats replied that they could not see their way clear to take out these candi-dates.

not see their way clear to take out these candidates.

The Indians believed that the Fairchilders were fencing with them, and they then declared that if harmony was to be reached it must be on the basis of candidates for Congress, the Senate, and the Assembly. In other words, there must be harmony all along the line or no harmony at all. The Indians reterated that they were ready to go ahead on that basis. The Fairchilders then said that they wanted over night to consider the proposition. They and the Tammany braves will meet at headquarters at noon to-day.

Chairman James J. Martin of the Tammany Hall Executive Committee, who has represented Tammany in the conferences arranged by the State Committee, with an idea of securing Democratic union on legislative candidates in this city, said yesterday:

State Committee, with an idea of securing Democratic union on legislative candidates in this city, said yesterday:

"It seems a very difficult matter to obtain a union. The fact is the State Democracy has no control over its candidates. They admit they can't get Williams out of the race for Senator in the Twelfth. It is equally improbable that they can get McManus out in the Seventeenth, or Cullen in the Fourteenth. The candidacy of these men threatens Democratic success in at least two of the districts. If the State Democracy cannot withdraw those men from the field, it doesn't seem probable that we will find a satisfactory basis for union."

In the territory of the Seventeenth Senate district, where McManus is running, the fusionists were successful last year by about 1,200 votes and the Grace Democracy cast about 2,200, Ex-Police Justice McMalon and ex-Senator Plunkitt say that there is this year nothing like the Tammany opposition which had to be encountered in the district last year.

TWO REPUBLICAN THIRTEENS. Van Cott Entires the County Committee to Befy Bud Luck.

The Republican County Committee meeting last night was as peaceful as a pink tea. Mr. Lauterbach presided without a cavel. The Committee on Organization reported that the zedistricting of the city made necessary an entire reorganization of the party machinery. A resolution leaving this to be done by the Committee on Organization was adopted. The same committee reported that the Committee of Thirty plan for running things needed amendment, and a committee of five to suggest amendments to the constitution was ordered. Two resolutions by Postmaster Van Cott. one for the appointment of a Campaign Committee of thirteen and the other for the appointment of an Advisory Campaign Committee of thirteen

were adopted.

Mr. Humphrey proposed an amendment to the Constitution to the effect that no person should be eligible to membership in the committee, or

be eligible to membership in the committee, or as a delegate to any nominating convention who is not a voter in the city. This was aimed at Amasa Thornton, late of St. Lawrence county. He was there and smiled grimilly.

Somebody moved to adjourn, and John Sabine Smith jumped up and said: "I have been expecting to hear a resolution endorsing our county ticket. We really ought to endorse it." This was received coldly, but the endorsement was voted.

Chairman Lauterbach took a shy then at Thurlow Weed Barnes. "The suggestion has been made," be said, "that the President of the County Committee justifies bolts against candidates nominated by the party. Neither individually and certainly not as Chairman of the committee am I to be quoted in any such direction. When a nominating convention once makes a nomination I take it to be the duty of every Republican to support that nomines loyally." every Republican to support that nominee loyally."

The Pavey men in the rear of the room applauded and the committee adjourned.

STATE DEMOCRACY'S ROOSTER. Police Board Had No Authority to Give It a Place on the Ticket.

ALBANY, Oct. 17. Deputy Secretary of State Davidson, in speaking this morning of the right of the State Democracy to have their nominces printed on the blanket ballot, said : "If, as stated in the press reports, the Police Commissioners of New York city have given

the State Democracy a separate column for their local nominations, with the Democratic State nominations on top, next to regular Democratic nominations with the rooster as an emauthority under the law. In order to secure a place in a regular column for a State ticket, the certificate of nomination shall be filed in the office of the Secretary of State, and the emblem chosen shall also be filed the emblem chosen shall also be filed there. Neither of these requirements of law have been complied with by the State bemocracy, and hence they are not entitled to a place in a party column on the blanket ballot. To secure a place in the independent column they must follow the law governing such nominations, as shown in section 57 or the election law. The last day for filing independent State nominations under section 57 was yesterday. "It is not within the province of the Police Commissioners of the city of New York, or the County Clerk of any county in the State, to say in what place or in what order regular party nominations shall appear on the ticket. He quotes the law to show that that duty devolves upon the Secretary of State.

Attorney-General Hancock to-day received a telegram from John C. Sheehan of New York city asking if the State Democracy nominations were entitled to a party column on the blanket ballot, and requesting a written opinion on the question. Mr. Hancock replied that they could settle their own local differences in New York city. In response to a similar query from the State Democracy leaders, he advised them to secure their own counsel to look after their interests, and said that he had not written any oninion which covers their contention. He added to a reporter:

"There are probably 50,000 people in New York city interested in having the State Democracy column on the ballot, and I guess that number contains sufficient intelligence to accure any recognition they are entitled to, either in the courts or otherwise." Neither of these requirements of

THE BROOKLYN CAMPAIGN.

THE LAST ATTEMPT TO RECONCILE THE GOO GOOS FAILS.

Mr. Grout's Prospects Retables and the Shepardite Ranks Continue to This Out Discord Among Republican Managers-Afraid of the Tax Rate Showing.

The harmony sub-committee of the Democratic State Committee, which was appointed at Senator Hill's suggestion, to make a last effort to secure if possible unity on Senate and Assembly nominations, has not met with any success in Kings county. The split between the regulars and the Shepardites is too wide and deep to be healed up at this late day, and Mesara. John F. Gaynor and Russell F. Stewart, on their return from their peace mission to Brooklyn, admitted that no change in the situation was probable

In five of the seven Senate districts the Shepardites have made independent nomina-tions, and in only seven of the twenty-one Assembly districts have they endorsed the regular Democratic candidates. In the Third Senate district, which is strongly Democratic, they have again put up "Uncle Dan" Bradley, and in the Fifth, which has also a big Democrati majority, they are running John J. Hennessy solely in the interest of the Republicans.

A like condition of affairs exists in the Seventh district, in which P. H. McCarren is making a gallant fight for the Democracy. The Demo cratic managers are inclined to think that Senator Hill has shown altogether too much consideration for the Brooklyn Goo Goos, and that if he was fully aware of the local situation he would never have proposed any further com-

promise with them.

Last night the Democrats completed their Senate ticket by nominating William S. Hurley in the Fourth district, in place of William Batterman, who declined to make the race on account of pressing business engagements. Mr-Hurley is a leading merchant in the Wallabout Market and very popular in the district. He is a member of Plymouth Church and a teacher in the Sunday school.

A lively squabble is in progress among the Republican statesmen who are managing Mr. Wurster's Mayoralty campaign, and there was an open break among them at an executive ses sion at the Joralemon street headquarters yes, terday afternoon, Chairman Reynolds was as cused of taking matters altogether too easily and of exhibiting an overconfidence in the sucess of Mr. Wurster. It was also contended that the introduction of Mayor Schieren as a factor in the Republican canvass was likely to work much more injury than good to their candi date, and one committeeman advised the muzzting of Mr. Schieren during the remainder muzzling of Mr. Schieren during the remainder of the campaign. "Of thirty Germans," he said, "whom I met yesterday in the Eastern District, fifteen told me they would not register or vote, and the other fifteen weren't sure that Wurster, if elected, would be a particle better than Schieren." It seems to be the prevailing sentiment in the committee that the less seen and heard or Mr. Schieren during the canvass the better it will be for Mr. Wurster's chances. Chauncey M. Depew is expected over at the Academy of Music to-morrow nugit to help out some life in the drooping Republican campaign. The Democratic managers are daily becoming more confident, and even the most cautious and observant men among them believe that Mr. Grout, who had only a figniting chance at the start, is now really in the lead. Disguise the fact as they may, or as they are unsuccessfully trying to, the Shepardite ranks are hadly broken, and if the defections continue, the so-called Reformed Democracy will be almost in the same class as the Prohibition, Socialist Labor, and People's parties, who, it is understood, are also to have a place on the big blanket ballot, Several stragglers from the Shepardite little flock came into the warm Democratic fold yesterday, the most conspicuous lieng Br. P. F. Hogan, who was one of Mr. Shepard's most active lieutenants in the Eighth ward.

The Citizens' organization, under whose direction the big demonstration was held at the Academy of Music on Monday night, is going to do effective service for Mr. Grout during the remainder of the campaign. Headquarters were opened in the Heal Estate Exchange, in Montager Street, yesterday and arrangements made for a thorough canvass of the city. Banker James McMahon is Chairman of the Citizens' Committee of One Hundred and Banker Felix Campbell is Treasurer.

The Republican managers are scared over the shock which will follow the announcement of the tax rate for this year. They have kept it back through various expedients, and hope to delay it until after election day. of the campaign. "Of thirty Germans," he said, "whom I met yesterday in the Eastern John C. shrewd Republican managers are anxious to keep Mr. Schieren as much in the background as possible.

The engrossing topic of conversation last night in Republican circles was the probable action of Mayor Schieren to-day in filling the vacant Police Commissionership. It was authoritatively announced that Clarence A. Barrow, who has been deputy Commissioner under Mr. Wurster and who was regarded as certain to get the place, had been turned down by Mayor Schieren, and that Supervisorat-Large Fitchie was likely to be maned for the place. It was stated that Mayor Schieren was at heart really anxious to get a renomination, and that he discovered that Mr. Barrow was the man above all others who laid the wires to capture the nomination for Mr. Wurster.

The Republican managers have met with a decided set-back in their attempt to have Mr. Wurster endorsed by District Assembly No. 75, K. of L., which is composed of the railroad men who were engaged in the big trolley strike last winter. The scheme was engineered by Master Workman Connolly and Trolley Inspector Donovan, but was completely shattered at agathering of the district delegates on Wednesday night. It was contended that Mr. Wurster was simply Mr. Schieren's shadow, and the mention of his name was greeted with a storm of hisses. It is admitted that the railroad men, almost without exception, will vote for Mr. Grout.

vitation, but Declines Tammany's WASHINGTON, Oct. 17.-Secretary Carlisle has accepted an invitation to attend the annual dinner of the New York Chamber of Commerce on Nov. 18 next. Mr. Carlisle will deliver the principal address. It will be on sound money The Secretary has declined to accept an invitation to deliver an address at the Tamman Hall ratification meeting in New York on Oct. 22, as on that day he will be en route with the President to attend the Atlanta Exposition. He has also declined to accept an invitation to address the labor union organizations at Chicago on Dec. 10 on the subject of sound money. Mr Carlisle says that at about that time Congress carisis says that at about that time Congress will assemble, and his presence here will be necessary. He intimates that he may find an opportunity later to deliver an address before the labor organizations of Chicago on the subject. Secretary Carisis has received an invitation from the Hurst Democratic Club of Baltimore to deliver a political speech at their meeting on Saturday, Nov. 2. It is probable that he will decline the invitation, under the rule laid down by the President, that Cabinet officers and other Government officials are not expected to make political addresses outside of their own State.

Populists, and one Democrat more or less, especially as representing a New York district, will make, most Republicans think, very little difference. Present in-

dications point to the election of Mr. Cummings by a

substantial majority. The rejuctance of Republican nominees to present themselves for Congressional honors in New York this year has recently been

illustrated in the case of Lemuci E. Quigg. who an

The Republicans are very sanguine this year of carrying the city of Louisville for Bradley, their candi-

data for Governor of Kentucky. Louisville is in Jefferson county, which, though heretofore Demo-eratic by from 3,000 to 8,000, was carried by the Republicans last year on the fight for Congressman

by 4,100. Mr. Bradley was the Republican nomines

for Governor in the contest of 1887, and he lost at that time Jefferson county by 3,000, and Fayette county, which includes the city of Lex-

ington, by 300, though it had been carried by the

Republicans at the previous general election. This year there is considerable defection from the Democratic ticket in and about Louisville

He Has Till Oct. 31 to Decide Whether Re Will Accept a Protectorate and a Brittah Resident-Downing Street Officials Decline to Talk with His Ambassador

The Land England Intends to Gobble Up. LONDON, Oct. 17. Great Britain has sent an ultimatum to the King of Ashanti, who is accused of violating his treaty obligations, de manding that he place Ashanti under British protection, with a resident Commissioner. The ultimatum will expire on Oct. 31.

Ashanti is the large territory lying behind the British Gold Coast near the Gulf of Guines, & land from which some gold dust comes, and which is very rich in other resources. This is the country that long shared with Dahomey the reputation of being the abode of the greatest cruelty on earth. At Coomassie, the capital, for all we know to the contrary, human sacrifices are still offered every day; and on the death of important persons scores of victims accompany them into the other world.

It is an undoubted fact, recorded in the most authoritative books on Africa, that the number of slaves killed upon the death of a King of Ashanti seldom falls under 2,000. On one bloody day 10,000 victims were slaughtered by a corpof executioners as a fitting observance of the This year's ballot to be voted by the citizens of New death of the King. When another sovereign York will be 16 inches long and 17 inches wide. Each

But the King of Ashanti says ne has his rights which the nations are bound to respect, even had twice as large a majority for their candidate for Governor as the Democrats had votes for their candithough so much blood has been shed around the golden stool which he and his predecessors have occupied in lieu of a throne. For about six weeks past the King's Ambassador and his election, with the exception of a Sheriff, to fill a va-caney, which it is in the power of the Governor to create. The amended Constitution, some of the desuite have been knocking at the door of the Foreign Office in Downing street, London. It has been closed in their faces. No official personage in England has admitted them to an audience; and the Ambassador has been compelled to resort to the newspapers to bring Ashanti's side of the present unpleasantness to the attention of the British public. The Minis-try have paid no attention to him, and have now given Ashanti till the end of this month in which to accept a protectorate or take the conheld in the odd numbered years, and this amendment 1893, will not be chosen until 1897, giving these two

now given Ashanti till the end of this month in which to accept a protectorate or take the consequences.

This is the British side of the question: The English say that after the war of 1873-74 when British troops trounced the people of Ashanti and burned their capital, a number of the important chiefs fell away from their allegiance to the King, and never since have recognized the power that had tyrannized overthem. The chiefs asked to be taken under a British protectorate but it was not thought advisable to pick a further quarrel with the King by granting their request. The present King is now raiding on these chiefs who are friends of the British, and not only threatens their extermination but is keeping the neighboring Gold Coast, one of England's most flourishing colonies, in a good deal of a turmoil.

The British add that when the present King mounted the golden stool, seven years ago, they practically put him there, and that he promised to be a good young man and stop human sacrifices and raiding for slaves. He has not kept either of these promises, according to Gov, Maxwell of the Gold Coast colony, but both practices are carried on to a frightful extent. So the prosperity of the Gold Coast requires that Ashanti be taken in charge by England and a British resident established at Coomassie.

There is another reason for England's present longing for Ashanti which is being kept in the background. The powerful ruler, Samory, whose great territory to the north of Ashanti is larger than some European States, and whom the French nave vainty tried for years to conquer, is awooging down toward Ashanti, and declares that he will gobble up the country. This has put Gov, Maxwell in a great state of mind, and the English want to get to Coomassie before Samory does.

On the other hand the Ashanti Ambassador in London, who cannot get anybody to listen to

On the other hand the Ashanti Ambassador in

On the other hand the Ashanti Ambassador in London, who cannot get anybody to listen to him except the newspapers, says that King Prempeh was not placed on the stool of Ashanti by the Hritish, and that the Blue Books show they did not; that the King has not broken a single promise he has made to England; that he is not countenancing human sacrifices, and has not hampered trade nor raided for slaves. There is some reason for thinking that these latter statements should be taken with a little salt.

The Ambassador further says that the King is prepared to open his country to British skill and trade, but he wants to be left as an independent ruler.

and trade, but he wants to be left as an independent ruler.

Since France acquired Dahomey, the country of Ashanti with its 2,000,000 people has been the only independent lative State of the slightest importance on or near the entire west coast of Africa. It is evidently destined now to become a British possession, though another military expedition to Coomassie will probably be necessary.

It may be said that in soite of the horrors of human sacrifices in Ashanti, the victims usually go to their death with cheerfulness. It is considered a great honor to die at the King scommand. My head belongs to the King and not to me, says the hapless wretch, as he is marched to his doom.

Congressman-elect James R. Howe, whose house at 188 South Ninth street, Williamsburgh, was visited by burglars some time on Tuesday night during the absence of the family at their country home, North Salem, Westchester country, returned to Williamsburgh last night to learn the extent of the robbery. He discovered that about \$200 worth of property had been stolen.

The burglars broke open a child's bank containing 35 cents and overlooked a small box near it which contained more than \$700 worth of lewelry. In a closet in the same room were valuable silks and other dress goods which were not molested. It is evident to the police that the burglars were not professionals.

How Was Carroll's Skull Fractured!

Coroner O'Meagher went to the Charities Hosnital on Blackwell's Island last night for the purpose of taking the ante-mortem statement of a man named Thomas Carroll, who was reported to be in a dving condition. Carroll, who lived at 316 West Forty-fourth street, was a prisoner in the Yorkville Court on Tuesday, and was sent to the workhouse.

Later his skull was found to be fractured. How it became fractured is not known. He was unconscious when the Coroner saw him last unight, so Dr. O'Meagher was unable to get his statement as to how he had been injured.
